

2018 Physics Summer Research Institute

May 29 - August 10, 2018

Interested in a career doing research in physics? The Physics Summer Research Institute provides CSUC students with a paid internship conducting cutting-edge research with a faculty mentor for up to 10 weeks this summer. Possible research areas include:

- ✦ Ultra-cold Atoms
- ✦ Ultra-fast Laser Spectroscopy
- ✦ Physics education
- ✦ Computational astrophysics
- ✦ Instrumentation development
- ✦ And more...

PSRI students receive \$3,825 for the 10 week program. All students will have the chance to present their work at a weekly seminar. In addition, PSRI offers professional development workshops, weekly research meetings, and the chance to present your research at a major scientific conference.

Application Instructions

- ✦ Speak with potential faculty mentors and identify a project of interest
- ✦ Write a 1-page Statement of Interest that explains the project you are interested in working on this summer and how PSRI fits into your academic and career goals
- ✦ Go to <https://goo.gl/forms/vSTeWoWWB2FEYLbm1> and fill out your application. You will need:
 - To be logged in with your Chico Wildcat email account to access the form
 - Your student ID number
 - Your anticipated graduation date
 - Your 1-page Statement of Interest in PDF format to upload
 - A list of Physics and Math courses you have taken with grades

Applications Due April 9th!
