

# Soil Health Academy

**Regenerative Farming & Ranching Offers Tools to Grow...  
HEALTHIER SOIL, FOOD, AND PROFITS**

**Featuring: Ray Archuleta, Gabe Brown, and Dr. Allen Williams**

*Increasing input costs, market volatility and changing weather patterns and extremes represent enormous farming challenges. Fortunately, regenerative farming and ranching principles offer solutions to growing improved farm productivity, resiliency, and profitability. During this hands-on Soil Health Academy, which features some of the world's preeminent regenerative agricultural instructors, you'll learn how to...*

- ♦ Reduce Inputs and Increase Profits
- ♦ Adaptive Grazing
- ♦ Improve Soil Ecosystem Function and Processes
- ♦ Use Soil Assessment Tools
- ♦ Design and Implement Multi-Species Cover Crops
- ♦ Integrate Livestock into Cropping Systems
- ♦ Build Economic & Ecological Resilience Through Stacked Enterprises
- ♦ Improve Irrigation Efficiency

*"The learning experience was priceless, and unparalleled to anything that I have experienced." - Joe Wilkerson, Farmer, North Carolina*
