Deadlines
 Funding Expertise. Personally Delivered.

May 10, 2019

This publication includes deadline dates for the month of August 2019 and late announcements for the months of July 2019 and June 2019. Proposals submitted by a referenced target date will be included in a particular review cycle, while those received after the target date will be held for the next review cycle. It is advisable to contact the program staff cited in each listing to obtain all available information.

Those deadlines marked by an asterisk () are tentative. In some cases, these are specific dates that may change depending on the timing of the deadline notices and in others, we have listed just the month during which a deadline is expected. Deadlines marked by a double plus sign (++) are target dates.**

Most BARD projects focus on increasing agricultural productivity, particularly in hot and dry climates, emphasizing plant and animal health, food quality and safety, and environmental issues. Program offers postdoctoral, senior research and graduate student fellowships, and also supports international workshops. All fellowships and workshops have an annual deadline: 1/15. Program also offers agricultural research and development projects involving both countries, due annually in September. Step 1 due 7/15. See <http://www.bard-isus.com/> for details. Program: Measurement Science and Engineering Research Grants Program

Agency: U.S. Department of Commerce

Next Deadline: Jun 2019 (*target date*)

NIST Laboratories in MD and CO conduct research responding to industry needs in the following areas: material measurement; physical measurement; engineering; fire research; information technology; neutron research; nanoscale science and technology; etc. Also supports an Engineering Laboratory Grant Program. Annual deadline: applications accepted on a rolling basis, but applications should be submitted by June to ensure funding in current fiscal year. Program: Unmanned Aircraft System (UAS)
Airspace Integration

Agency: U.S. Department of Defense

Next Deadline: Aug 06, 2019

Supports basic, applied, advanced and demonstration/validation research on new Unmanned Aircraft System (UAS) airspace integration technologies. Focus areas include: Concept and component development (software and/or hardware); Modeling, simulation and UAS analysis; Trade studies and research of UAS systems, subsystems and interfaces; Verification, validation and safety analysis; Human-machine interface research and development, etc. See <http://tinyurl.com/zdsvm8r> for details. Program: Awards to Stimulate and Support Undergrad Research Experiences (ASSURE)

Agency: U.S. Department of Defense

Next Deadline: Aug 28, 2019

Supports undergrad research in DOD-relevant disciplines and is designed to increase the number of high-quality undergrad science and engineering majors who decide to pursue advanced degrees. DOD executes the ASSURE program collaboratively with NSF through its Research Experiences for Undergraduates (REU) Sites Program, and does not run a separate solicitation. Annual Deadline: projects requiring access to Antarctica are due fourth Friday in May; all other sites due fourth Wednesday in August. Program: Research and Education Program for HBCUs and MSIs
Equipment/Instrumentation

Agency: U.S. Department of Defense

Next Deadline: Jul 15, 2019

Supports innovative approaches to research and education that contribute to the education of a diverse and capable workforce in STEM areas that are important to the DOD mission. Funds support the acquisition of equipment/instrumentation to augment or develop DoD relevant research capabilities and attract students to STEM fields. Eligibility is limited to Historically Black Colleges and Universities (HBCU) and other minority-serving institutions (MSI). Partnering opportunities may exist for other types of institutions. Program: Communications-Electronics Research Development and Engineering Command BAA

Agency: U.S. Department of Defense

Next Deadline: Aug 25, 2019

Program supports proposals for research and development related to advanced intelligence, information, and electronics-based warfare technology. Topic include, but are not limited to: Intelligence and Information Warfare; Collect - Advanced Radio Frequency Technology and Techniques; Signals Intelligence for Conventional Analog/Digital Signals & Low Probability of Intercept Signals; Signals Intelligence for Modern Signals; Multiple-Intelligence; Collect Signal Intelligence for Electronic Intelligence and ; Collect - Measurement and Signature Intelligence. Program: DARPA: Information Innovation Office

Agency: U.S. Department of Defense

Next Deadline: Aug 30, 2019

Supports innovative research proposals in the areas of program analysis, verification, and big data analytics for specifying, discovering, and understanding properties of complex software systems. Programs include: The Information Innovation Office Office-wide BAA, seeking unconventional approaches that are outside the mainstream, challenge accepted assumptions, and have the potential to radically change established practice through innovative approaches that enable revolutionary advances in science, devices, or systems (8/30/19).
