Re: Food Preparation and Vending On-Campus

Recently, the Department of Environmental Health and Safety (EHS) reviewed the student food vending activities at some of the locations where student groups have set-up routine vending activities. These activities are not the single event fundraising activities like BBQs and bake sales. These activities include the sale of coffee, pastries, and refrigerated items. After reviewing the activities, the California Retail Food Code, and consulting with Butte County Environmental Health, (our local enforcement agency), we have come to the conclusion these activities are not in compliance with regulations. Some select definitions have been included below to allow readers a better understanding of what activities are covered under the Retail Food Code.

The California Retail Food Code requires that food and beverages be prepared in a permitted commercial kitchen. Even the preparation and dispensing of coffee is considered food preparation under the Code. In addition, the Code requires that all utensils and equipment be cleaned and sanitized daily in a permitted facility. Mobile food facilities (carts) must operate in conjunction with a permitted facility (referred to as "Commissary") or a permitted mobile support unit. These preparation and vending operations should be directed to a commercial kitchen for preparation and cleaning, or the food and drinks should be purchased from a licensed vender and sold prepackaged or in disposable containers.

At this time, all preparation and vending of foods that are not prepackaged, including coffee, other than the fundraising BBQ type activities currently permitted through EHS, should be discontinued. We apologize for any inconvenience this may cause you and/or your groups.

Select definitions from the California Retail Food Code. Bold type added for readability.
