

Modifications to W and GC requirements for Students who Study Abroad (approved by UWC 9/21/18 and CAB 9/26/18)

Students who complete an Upper Division Area 3: Arts/Humanities course and at least one other Upper Division Pathway course, from either Area 4: Social and Behavioral Sciences or Area 5: Physical and Biological Sciences, while studying abroad will receive credit for one writing course (W). Credit will be given to the W2 course first. If the W2 course is fulfilled, credit will count for W3 if no specific course(s) is specified by the department. Students who study abroad, in consultation with a study abroad advisor, may also petition the UWC Chair for W credit for other combinations of study abroad course(s) after a review of writing assignments done abroad. GC credit is to be granted to any student who takes at least 3 units while studying abroad.
