

WE'RE

HIRING

BILINGUAL MENTAL HEALTH THERAPISTS

We are a leading non-profit organization in New York that has been caring for the community for over 48 years. We are founded on the belief that everyone, no matter age, race or socioeconomic status, is entitled to the **best possible mental health treatment**.

We assist children, families, and individuals with behavioral and emotional challenges in becoming more productive, independent members of society. As part of our mission to help underserved Latino communities, **we are seeking to hire remote-only Bilingual Clinicians**.

NYPCC is also certified by Mental Health America as a **Platinum Bell Seal organization**, the highest certification possible. We partner with various colleges and universities in an effort to recruit dedicated and passionate mental health professionals and are excited to extend our partnership to you.
